2.20 Opening of Tenders

2.20.1 The Procuring entity will open all tenders in the presence of tenderers' representatives who choose to attend, at **10.00 am East African Time on 11th October, 2016 (as per Tender Notice)** and in the location specified in the Invitation to Tender.

2.20.2 The tenderers' representatives who are present shall sign a register evidencing their attendance.

2.20.3 The tenderers' names, tender modifications or withdrawals, tender prices, discounts and the presence or absence of requisite tender security and such other details as the Procuring entity, at its discretion, may consider appropriate, will be announced at the opening.

2.20.4 The Procuring entity will prepare minutes of the tender opening.

2.21 Clarification of Tenders

2.21.1 To assist in the examination, evaluation and comparison of tenders the Procuring entity may, at its discretion, ask the tenderer for a clarification of its tender. The request for clarification and the response shall be in writing, and no change in the prices or substance of the tender shall be sought, offered, or permitted.

2.21.2 Any effort by the tenderer to influence the Procuring entity in the Procuring entity's tender evaluation, tender comparison or contract award decisions may result in the rejection of the tenderers' tender.

2.22 Preliminary Examination

2.22.1 The Procuring entity will examine the tenders to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the tenders are generally in order.

2.22.2 Arithmetical errors will be rectified on the following basis. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected. If the candidate does not accept the correction of the errors, its tender will be rejected, and its tender security forfeited. If there is a discrepancy between words and figures the amount in words will prevail.

2.22.3 The Procuring entity may waive any minor informality or non-conformity or irregularity in a tender which does not constitute a material deviation, provided such waiver does not prejudice or effect the relative ranking of any tenderer.

SB/24/2016/2017 SUPPLY OF EXHAUSTER

2.22.4 Prior to the detailed evaluation, pursuant to paragraph 2.23 the Procuring entity will determine the substantial responsiveness of each tender to the tender documents. For purposes of these paragraphs, a substantially responsive tender is one, which conforms to all the terms and conditions of the tender documents without material deviations. The Procuring entity's determination of a tender's responsiveness is to be based on the contents of the tender itself without recourse to extrinsic evidence.

2.22.5 If a tender is not substantially responsive, it will be rejected by the Procuring entity and may not subsequently be made responsive by the tenderer by correction of the non-conformity.

2.23 Conversion to Single Currency

2.23.1 Where other currencies are used, the procuring entity will convert these currencies to Kenya Shillings using the selling exchange rate on the rate of tender closing provided by the Central Bank of Kenya.

2.24 Evaluation and Comparison of Tenders

2.24.1 The Procuring entity will evaluate and compare the tenders, which have been determined to be substantially responsive, pursuant to paragraph 22.

2.24.2 The Procuring entity's evaluation of a tender will exclude and not take into account:

- (a) in the case of goods manufactured in Kenya or goods of foreign origin already located in Kenya, sales and other similar taxes, which will be payable on the goods if a contract is awarded to the tenderer; and
- (c) any allowance for price adjustment during the period of execution of the contract, if provided in the tender.

2.24.3 The comparison shall be of the ex-factory/ex-warehouse/off-the-shelf price of the goods offered from within Kenya, such price to include all costs, as well as duties and taxes paid or payable on components and raw material incorporated or to be incorporated in the goods.

2.24.4 The Procuring entity's evaluation of a tender will take into account, in addition to the tender price and the price of incidental services, the following factors, in the manner and to the extent indicated in paragraph 23.5 and in the technical specifications:

- (a) delivery schedule offered in the tender;
- (b) deviations in payment schedule from that specified in the Special Conditions of Contract;

SB/24/2016/2017 SUPPLY OF EXHAUSTER

- (c) the cost of components, mandatory spare parts, and service;
- (d) the availability in Kenya of spare parts and after-sales services for the equipment offered in the tender;

2.24.5 Pursuant to paragraph 2.24.4 the following evaluation methods will be applied:

(a) ***Delivery schedule.***

- (i) The Procuring entity requires that the goods under the Invitation for Tenders shall be delivered at the time specified in the Schedule of Requirements. Tenders offering deliveries longer than the procuring entity's required delivery time will be treated as non-responsive and rejected.

(b) ***Deviation in payment schedule.***

Tenderers shall state their tender price for the payment of schedule outlined in the special conditions of contract. Tenders will be evaluated on the basis of this base price. Tenderers are, however, permitted to state an alternative payment schedule and indicate the reduction in tender price they wish to offer for such alternative payment schedule. The Procuring entity may consider the alternative payment schedule offered by the selected tenderer.

(c) ***Spare parts and after sales service facilities.***

Tenderers must offer items with service and spares parts backup. Documentary evidence and locations of such back-up must be given.

(d) ***Bid Evaluation Criteria***

The specifications of the item(s) offered by the bidder will be examined and compared with the requirement's specifications and check lists drawn up for all items showing the main requirements specified and whether or not each bid complies with the requirements.

Certain deviations from the required specification are critical to the performance (or capacity) or efficient operation of the equipment concerned. Deviations of this type are classified as major deviations. Bids with one or more major deviations from the requirements will in all cases be rejected as technically non-responsive. Deviation from any requirement listed as mandatory in the technical specifications is considered a major deviation. Deviations which are not critical to the performance or efficient operation of the equipment are considered minor and will not result in rejection of the bid but the bidder will lose points on such deviations.

(e) ***Technical Evaluation***

A point system will be used to rate all the technically responsive bidders with the maximum score being **60 points** distributed as below.

(i) Technical compliance

Determined by the information given by the tenderer. Minor deviation from the specification may be allowed. A maximum of **30 points** will be allotted to the tenderer whose equipment meet all the specifications.

(ii) Spare parts availability

This is to be determined by the information supplied by the tenderer as regards to local firms that deal with stocking of spare parts for the make of equipment and physical check on these dealers may be done to confirm availability of spares whose equipment spare parts dealership is proven that will earn **5 points**.

(iii) Workshop facilities and after sales service

This is to be determined from information supplied by the tenderer as well as physical checks and the procuring entities past experience. A maximum of **5 points** will be allotted for quantity and quality of servicing facilities as well as efficiency and reliability of the service rendered by the appointed local agent.

(iv) Performance rating

A maximum of **5 points** will be allotted to tenderers on the basis of recorded past performance of equipment in the Country. Points covered will be reliability, life expectancy and suitability for local working conditions and tenderer's past record. A point will be awarded for each of the factors.

(v) Manufacturer's warranty

This is to be determined from information supplied by the tenderer. This will be on the duration of warranty with a maximum of **5 points** being allotted to the tenderer with a warranty, as indicated in that particular specification. This is important and mandatory as failure to provide warranty will mean automatic disqualification. Warranty has to be supported by equipment manufacturer.

SB/24/2016/2017 SUPPLY OF EXHAUSTER

(vi) Concurrence with vehicle and plant standardisation

A maximum of **2 points** will be allotted to tenderers on the basis of standardisation with current Government fleet, with the most populous make scoring 2 points and all other tenderers by proportion to their numbers.

(vii) Dealership

To be determined by information supplied by the tenderer as well as past experience of the procuring entity. Proven dealership will be allotted **3 points** and equipment with no local dealer or agent will be disqualified.

(viii) Environmental compatibility will earn a maximum of **5 points** basing on NEEMA and other international standards.

(f) ***Commercial Evaluation***

Only bids scoring **45 points (75%)** or more in the technical evaluation will be considered for further commercial evaluation. For the purpose of determining the lowest evaluated bid, the procuring entity shall take factors other than the price into account in the following manner. The lowest financial bid will be allotted a maximum of 40 points and the other bids will be allotted points in proportion to their bid prices as shown here below:

Lowest bid x 40

Bid price

Bids will be ranked according to their combined technical (St) and financial (sf) scores using weights.

T = Weight given to the technical evaluation, maximum 60%;

P = the weight given to the financial evaluation, maximum point 40%.

T+P = 100%.

Sf is determined by the following formular.

$$Sf = \frac{\text{Lowest Bid}}{\text{Bid price}} \times 40$$

$$S = St + Sf$$

S being the total combined weighted financial and technical score.

Firm will be ranked as per the combined financial and technical scores.

2.25 Preference

SB/24/2016/2017 SUPPLY OF EXHAUSTER

2.25.1 Preference where allowed in the evaluation of tenders shall not exceed 15%

2.26 Contacting the Procuring entity

2.26.1 Subject to paragraph 2.21 no tenderer shall contact the Procuring entity on any matter related to its tender, from the time of the tender opening to the time the contract is awarded.

2.26.2 Any effort by a tenderer to influence the Procuring entity in its decisions on tender, evaluation, tender comparison, or contract award may result in the rejection of the Tenderer's tender.

2.27 Award of Contract

(a) Post-qualification

2.27.1 In the absence of pre-qualification, the Procuring entity will determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily.

2.27.2 The determination will take into account the tenderer financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the tenderers qualifications submitted by the tenderer, pursuant to paragraph 2.12.3 as well as such other information as the Procuring entity deems necessary and appropriate.

2.27.3 An affirmative determination will be a prerequisite for award of the contract to the tenderer. A negative determination will result in rejection of the Tenderer's tender, in which event the Procuring entity will proceed to the next lowest evaluated tender to make a similar determination of that Tenderer's capabilities to perform satisfactorily.

(b) Award Criteria

2.27.4 Subject to paragraph 10, 23 and 28 the Procuring entity will award the contract to the successful tenderer(s) whose tender has been determined to be substantially responsive and has been determined to be the lowest evaluated tender, provided further that the tenderer is determined to be qualified to perform the contract satisfactorily.

(c) Procuring entity's Right to Vary quantities

2.27.5 The Procuring entity reserves the right at the time of contract award to increase or decrease the quantity of goods originally specified in the Schedule of requirements without any change in unit price or other terms and conditions.

(d) Procuring entity's Right to Accept or Reject Any or All Tenders

2.27.6 The Procuring entity reserves the right to accept or reject any tender, and to annul the
